Retention Programs
These programs are designed to assist dental and dental hygiene students successfully progress through A&M Baylor College of Dentistry.

Peer Tutoring Program (PTP) provides free tutoring for dental and dental hygiene students.
- The academic progress of dental and dental hygiene students is monitored
- Students who are having academic difficulty are contacted and encouraged to participate in PTP
- Tutors are nominated by course directors and trained by the PTP director

Academic Counseling helps students with:
- Time and stress management
- Organization and test-taking skills
- Study skills/learning strategies

Education for Healthcare Professionals Program (EDHP)
EDHP results in a certificate or MS degree in Education for Healthcare Professionals, which can be earned simultaneously with or subsequent to a DDS degree. The EDHP purpose is to:
- Facilitate the background and skills necessary to be an excellent educator in areas of specialty
- Improve and develop innovative educational programs in health professions education
- Promote health professions education leaders with a broad and rigorous foundation in the theory and practice of education

Mission Statement
The Office of Student Development and Multicultural Affairs seeks to create lifelong partnerships with current and potential dental professionals. The primary objective of the Office is to assist qualified students in gaining admission into and successfully graduating from dental school. The Office of Student Development and Multicultural Affairs provides services and implements strategies which target students from pre-kindergarten through post-doctoral education. These services and strategies include: career awareness activities; recruitment and assisted-entry activities; retention services; and post-doctoral training.

Project Dental Awareness (PDA)
PDA is designed to increase students’ awareness of dental health and dental careers. Project activities include:
- On-site visits to elementary schools
  - Pre-K through kindergarten: video
  - 1st grade: “Brushing Our Teeth” (activity)
  - 2nd grade: “Pretty Smiles” (activity)
  - 3rd grade: “Seal-a-Way” (activity)
  - Pre-K — 3rd grade: Cultural Competence seminar
- Future Dentists Club (FDC) for 4th through 12th graders activities include:
  - Dental activities
  - Meeting and talking with dental students
  - Cultural Competence seminar
- Field trips to A&M Baylor College of Dentistry by 7th through 12th graders
  - Dental career awareness presentation
  - Tour of the dental school
  - Hands-on activity

Summer Pre-Dental Enrichment Program for 10th Graders (SPEP 10)
SPEP 10 is a one-week program which provides rising 10th graders an opportunity to increase their dental career awareness. The curriculum includes:
- Pre-Clinical Dentistry course
- Investigating Dentistry course
- Cultural Competence seminar

Summer Pre-Dental Enrichment Program for 11th Graders (SPEP 11)
SPEP 11 is a one-week program which provides rising 11th graders an opportunity to increase their dental career awareness. The curriculum includes:
- Pre-Clinical Dentistry course
- Pre-SAT course
- Investigating Dentistry course
- Cultural Competence seminar

Summer Pre-Dental Enrichment Program for 12th Graders (SPEP 12)
SPEP 12 is a four-week program which provides rising 12th graders an opportunity to learn about the dental profession, prepare for and successfully take the SAT and increase their competitiveness for admission to college. The curriculum includes:
- SAT Preparation course and/or college preparatory courses
- Pre-Clinical Dentistry course
- Learning Strategies course
- Investigating Dentistry course
- Clinical rotations
- Pre-Admission workshops
- Field trips to colleges and universities
- Cultural Competence seminar

Summer Pre-Dental Enrichment Program for High School Graduates (SPEP Collegiate I)
SPEP Collegiate I is a four-week program which provides high school graduates with a definite interest in dentistry an opportunity to prepare for college and learn more about dentistry. The curriculum includes:
- Two college-level courses
- Pre-Clinical Dentistry course
- Clinical rotations
- Investigating Dentistry course
- Cultural Competence seminar

Summer Pre-Dental Enrichment Program for College Students (SPEP Collegiate II)
SPEP Collegiate II is a six-week program which provides college students and graduates an opportunity to prepare for and successfully take the DAT, strengthen their academic science background, increase their competitiveness for admission to dental school and enhance their success once admitted to dental school. The curriculum includes:
- Introduction to the Human Body course
- Pre-Clinical Dentistry course
- Learning Strategies course
- Investigating Dentistry course
- DAT Preparation course
- Pre-Application counseling
- Clinical rotations
- Cultural Competence seminar

Post-Baccalaureate Program (PBP)
PBP is a year-long program which provides students with baccalaureate degrees an opportunity to gain admission into A&M Baylor College of Dentistry upon successful completion of the Program. The curriculum includes:
- DAT Preparation course
- 30 hours of upper-division science courses
- Learning Strategies course
- Pre-Clinical Dentistry course
- Investigating Dentistry course
- Cultural Competence seminar
